

## COORDINATION WITH THE NRCC

Purpose: The NRCC is most critical. The NRCC, along with the Leadership, will be charged with developing an overall campaign plan for House Republicans for 1994. The plan should include (among many other things):

- Democrat Target List – Target list of the most vulnerable Democrat seats, along with specific plans to "soften up" those seats beginning now. Enough seats should be targeted to lead to a Republican majority in the House.
- Republican Target List – Target list of vulnerable Republicans, along with specific plans to protect them. This may include fundraising plans, overseeing individual campaign plans, etc.
- Research - Research plan to track and exploit committee votes, Floor votes and statements from vulnerable Democrats. This may involve assistance from Minority staffers on committees to keep track of votes and a well-trained research team at the NRCC working closely with key House Members.
